

Each point of extension is a new separate vertex?

YES

NO

Keep metallic nodes?

NO

YES

*PE\**

Group adjacent metal atoms?

YES

*Single Node*

NO

*Standard*

Group adjacent metal atoms?

YES

*All Nodes*

NO

*PE&M\**

Additional rules:

- any vertex with no neighbor is removed.
  - any vertex with exactly two neighbors is replaced by an edge.
- Apply iteratively until convergence.
